

Press Release

Seaton House Sews Up the Bear Necessities of Life!

According to the nursery rhyme, everyone knows what Little Boys and Little Girls are made of – but what about Little Bears? This is what the Reception class at Seaton House School set off to find out when they visited The Build a Bear Workshop.

Once the bear was chosen, it was very carefully filled with soft stuffing and each girl had a turn at pressing the magic pedal, as the bear got fatter and fatter before making a wish and a special thought as the heart was gently put in place.

Then the fur of the padded bear was softly combed and finally an outfit was chosen from the vast rails of pretty costumes – a pink dress – for of course the Bear just had to be a girl!

And then she was finished – but what about a name? The whole class decided on 'Rosie' and now Rosie lives in the Reception classroom. Except that is, when she is invited on a two-night sleepover to the home of one of our Reception girls and her adventures on those visits are told to the rest of the class. Rosie is a very lucky bear to have so many friends at Seaton House to play with her and take her home.

..... and that is what Little Bears are made of!
